***"The amount of antioxidants that you maintain in your body  
is directly proportional to how long you will live."***

Richard Cutler, MD, Director of Anti-Aging Research, National Institute of Health

I am very excited to invite you to this Anti-Aging Presentation on Nuskin's new technology in nutrition and health. The **Biophotonic Scanner** based on Nobel Prize winning science, is the only patented instrument that can accurately measure the skin carotenoid levels in a 90 second non-invasive test. This is an important biomarker of your antioxidant levels, and it can demonstrate whether your diet, lifestyle and supplement program is working for you! If you come to a meeting between 6.30-7.30 pm, you will receive a free reading. Visit [www.pharmanexmd.com](http://www.pharmanexmd.com) for more information and research studies.

Then from 7.30-8.30 pm, Lawrence Cazan Cassini, Preventive Medicine Consultant and owner of Natural Wellness Point in Hollywood, will give a presentation and demonstration on the **Galvanic Spa**. Similar to the the technology of the iPhone, now you can own an affordable hand-held device equivalent to a \$20,000 spa machine and give yourself facials and cellulite treatments that would cost you \$100-\$200 at the spa. The Galvanic Spa Kit retails for just \$350, and comes with a full month supply of products. Now everyone can enjoy these highly effective treatments in the convenience and privacy of their home for less than \$10 per treatment.

The Galvanic Spa Facial not only cleanses, refines pores, erases wrinkles firms and lifts the face, it also works *from within* to turn back the hands of time with Nuskin's unique facial gels containing **AgeLoc**, a revolutionary, patented ingredient that "locks" the aging process in the cells. Nuskin has also developed **True Face Essence Ultra**, a serum containing **Ethocyn**, another patented anti-aging ingredient, that is clinically proven to restore elastin and collagen production to levels of a 20-year-old! (visit [www.ethocyninfo.com](http://www.ethocyninfo.com)). The Galvanic Spa was developed in Europe and

introduced into the US just two years ago. It is marketed exclusively by NuSkin, a Forbes 500 network company that operates in 50 countries worldwide. Celebrating its 25 anniversary, Nuskin is now selling over 1000 Galvanic Spas a day! Nuskin's 130 full-time scientists continue to be on the cutting edge on research into health, beauty and anti-aging science. You can visit [www.nsevideos.com](http://www.nsevideos.com) and [www.ns-spa.com](http://www.ns-spa.com) to view TV news clips and video presentations on the Galvanic Spa. Visit [www.nuskinusa](http://www.nuskinusa) for complete information on all the Nuskin products.

After seeing some news clips, I was really excited and immediately knew that this was an opportunity that could not be missed! Needless to say, this is ***a product that will sell itself*** to all ages from teenagers to seniors. And guess what, the men want a Galvanic Spa too, not only to look younger, but also because it stimulates new hair growth! Now is the ideal time to enter the market and benefit from the rapid growth of a product that *truly delivers results*.

So do not delay in taking a few minutes to watch the videos and research the websites. Please feel free to call me or Lawrence (954-614-6540) with your questions. Space is limited, so **PLEASE RSVP** if you plato attend, and bring your family and friends, too.

Wishing you Life-long Health and Abundant Qi,

Dashi

*PS- If you are unable to make the meetings, please call me and we can arrange a time for a free demo facial.*
